

Pan American Silver reports on status of modification to the mining law in Chubut, Argentina

VANCOUVER, BC, Dec. 16, 2021 /CNW/ - **Pan American Silver Corp.** (NASDAQ: PAAS) (TSX: PAAS) ("Pan American Silver") reports that, on December 15, 2021, the legislature of the Province of Chubut in Argentina approved a legislative bill (the "Bill") that would modify the provincial mining law to allow permitting of open pit mining in certain zones in the Departments of Gastre and Telsen, which are defined by a land use sensitivity map. The Bill requires Executive approval and official publication before it becomes law.

Pan American Silver owns 100% of the large Navidad silver project. The Navidad project is located in the north central part of the province and is within the designated zone that would potentially allow permitting of open pit mining. Any mining project, including Navidad, would be required to undergo applicable review processes and apply for permitting under provincial laws.

Pan American Silver believes that properly permitted and regulated mining activity with sustainable mining practices, both environmental and social, can benefit the people of Chubut. Pan American Silver will continue to evaluate the potential development of Navidad. This work includes engaging in open, transparent dialogue with applicable communities of interest and assessing the permitting requirements, time lines and capital investment.
